Draft — not ready for submission. The last completed main CI run failed and a newer run was in progress at the last check; the green run linked above is older. The URL is a temporary preview whose backend depends on a local machine; /health on that Hosting URL returns 404. Release v1.0, the final Scrum Master confirmation and end-of-sprint board evidence are still pending. See docs/operations.md and docs/sprint-log.md.
